03 — Service Process & Customer Benefits

Why Customers Work With Titan

Responsive service: A direct contact for quotes, scheduling, status updates and delivery coordination.

Nationwide carrier sourcing: Carrier options matched to the route, equipment, schedule and shipment requirements.

Clear communication: Important milestones and exceptions are communicated throughout the shipment.

Flexible support: Coverage for regular transportation, overflow volume, difficult routes and backup needs.

Business-focused coordination: Practical service designed to reduce the customer's administrative workload.

Our Shipment Process

- 1 Request** Customer provides shipment details, locations, timing and special requirements.
- 2 Quote** Titan reviews the lane and equipment needs, then provides a transportation quote.
- 3 Booking** Shipment details, contacts and expectations are confirmed before dispatch.
- 4 Carrier assignment** Titan sources and reviews a motor carrier appropriate for the shipment.
- 5 Pickup and transit** Pickup is coordinated and shipment progress is communicated.
- 6 Delivery** Delivery is confirmed and supporting documentation is collected as applicable.

Carrier Qualification & Risk Controls

Before assignment, Titan's carrier review may include, as applicable:

- Operating authority and identity review
- Insurance documentation review
- Equipment and service capability confirmation
- Pickup and delivery contact verification
- Written dispatch instructions and agreed commercial terms
- Shipment documentation and status follow-up

Carrier selection is shipment-specific. Documentation and coverage requirements may vary by cargo, equipment, customer contract and route.
